Catholic Benevolent Societies.

A letter from Portsmouth, Va., published in the Fredericksburg Star, says:—A convention of Catholic Benevolent Societies of Virginia met at this place on Thursday, the 15th instant, for the purpose of organizing a State Union of said societies with a still further view of being aggregated to the National Catholic Union of the U. S. The following officers were elected for the ensuing year: William Kilgour, of Alexandria, President; M. Glennan, of Norfolk, Vice President; John O'Connor, of Portsmouth, Secretary; Dr. M. J. Griffith, of Fredericksburg, Treasurer. The President, after being conducted to the chair, delivered an eloquent address. He said though met as strangers they were bound by the band of friendship and met with cordial greeting and fidelity of hearts for a common aim and noble purpose. Though met as strangers they were known to each other by the bond of a common faith. They met to build up an edifice at once grand and permanent upon each arch of which should be inscribed, "I was hungry and you gave me to eat, I was thirsty and you gave me to drink, I was sick and you visited me &c." To-day was thrown to the breeze a banner of love and charity, and it would wave in triumph till it spread from ocean to ocean.

The Committee on Address presented the following, which was unanimously adopted:—"To the different Catholic Benevolent Societies of the State of Virginia: In compliance with the wishes of the first annual convention of the 'Catholic Benevolent Union of the State of Virginia,' it is our pleasing duty to address you a few words on the object of the meeting of the State Union, and the numerous advantages that may be derived from it. The first convention of the State Union, held in the city of Portsmouth on the 15th of February, 1871. The object was the formation of an union of all the Catholic benevolent societies of the State, in pursuance of a request of the National Convention held in Cincinnati, October 19, 1870, and with the still further view of having this State Union aggregated to the said National Union. In most of the cities and principal towns of the Diocese of Richmond there are Catholic benevolent societies already established, and we call their kind attention to this important matter and trust they will avail themselves of the many advantages which must accrue from a union of the different Catholic Societies of the State.

Although provision may be made by the several societies throughout the State for their respective members when they require aid, yet how frequently may it happen that a member may be overtaken by sickness in some neighboring city and draw from such sister societies the customary benefits and receive that kind care and attention, which only a sense of Catholic charity and duty can inspire. It affords him a still further and additional pleasure when he considers that he receives such succor, not as a mere tribute of charity, but as an aid to which he has a strict right. Hitherto we have had no such union of our Catholic societies in this State. Let us endeavor to make this a great success. We have sanguine hopes that this meeting is the first dawn of sunshine that will cause rich fruit to come forth. We sincerely hope that at our next meeting in June, of this year all the Catholic benevolent societies of the State will be represented and that we may be able to present a strong bulwark against the tide of distress, which has made some headway in our land.

On motion of Dr. M. J. Griffith, a committee of three was appointed to report at the next Convention what means are necessary to encourage and promote Catholic immigration to our State.

The proceedings were characterized by harmony and animation.

The committees of Norfolk and Portsmouth vied with each other in their hospitality to delegates from the distant portions of the State.

The Convention adjourned to meet in Alexandria on the second Wednesday in June next.

PARIS.—It is very difficult to arrive at a just conclusion upon the condition of affairs that prevailed in Paris previous to and just after the surrender. The own common sense, and his appreciation of the possible, might frame a satisfactory idea of the state of things in the besieged and once pressed French capital, which would probably approximate to the truth. One might imagine that here was weeping and suffering, there indifference and a sufficiency of the physical needs of man; here bravado and recklessness, there terror and melancholy. But, as we read the romantic stories of correspondents, the Parisians are made to present themselves in so great a variety of guises that they appear to have dropped all mere human characteristics, and to have come out of the garb of the "heavy villain" of the melodrama, or in the motley array of participants in a carnival.

A stray correspondent, who managed to work his way into Paris immediately after the armistice, was at first threatened by some drunken Guards Nationales as being a Prussian. Escaping this danger, he sought lodgings, and gave to his entertainers a banquet which he had brought with him in his haversack. The ham was eaten in short order, and the rumor of the repast spreading abroad, the neighbors flocked in to take a look at the bones and to inspect those who had eaten the rare delicacy.—*Wash. Patriot.*

THE NEW CATTLE DISEASE.—The new cattle disease, called epizootic sphtha, which has created so much alarm through New England, does not appear to be as fatal in its results as the pleuro-pneumonia, which wrought such mischief a few years ago; but the contagion spreads in a remarkable manner, instances being given of its being conveyed in the clothes of men who have been among the infected animals. In some instances sheep and hogs have taken the infection. The symptoms are suppurations between the claws and the hoofs, blistered mouths and inability to eat. In some cases the tongues peeled, and the rough skin applied to the feet and alum to the blisters above the mouth have resulted well. Few cases have proved fatal, as the disease readily yields to judicious treatment.

Mrs. Partington was asked, "What church do you go to?" "To any paroxysmal church," said the old lady, looking over her spectacles, "where the divine word is dispensed with."

DRUGS AND CHEMICALS.

SIMMONS' LIVER
The symptoms of Liver Complaint are uneasiness and pain in the side. Sometimes the pain is in the shoulder, and is mistaken for rheumatism. The stomach is affected with loss of appetite and sickness, bowels in general constive, sometimes alternating with laxity. The head is troubled with pain, and dull, heavy sensation, considerable loss of memory, accompanied with painful sensation of having left undone something which ought to have been done. Often complaining of weakness, debility and low spirits. Sometimes many of the above symptoms attend the disease, and at other times very few of them; but the liver is generally the organ most involved. Cure the Liver with

Offer for sale at par and accrued interest the
FIRST MORTGAGE
LAND GRANT GOLD BONDS
—OF THE—
Northern Pacific Railroad Co.

These bonds are secured, first, by a First Mortgage on the Railroad itself, its rolling stock, and all equipments; second, by a First Mortgage on its entire Land Grant, being more than Twenty-Two Thousand Acres of Land to each mile of Road.

The Bonds are free from United States tax; the Principal and Interest are payable in Gold—the Principal at the end of Thirty years, and the Interest Semi-annually, at the rate of SEVEN and THREE-QUARTS PER CENT. per annum.

They are issued in denominations of \$100, \$500, \$1,000, \$5,000 and \$10,000.

The Trustees under the Mortgage are Messrs. Jay Cooke, of Philadelphia, and J. Edgar Thomson, President of the Pennsylvania Central Railroad Company.

These Northern Pacific 7-30 Bonds will, at all times before maturity, be receivable at TEN PER CENT. PREMIUM (or 1.10) in exchange for the Company's lands at their lowest cash price.

In addition to their absolute safety, these Bonds yield an income larger, we believe, than any other first-class security. Persons holding United States 5-20's can, by converting them into Northern Pacifics, increase their yearly income one-third, and still have a perfectly reliable investment.

HOW TO GET THEM.—Your nearest Bank or Banker will supply these bonds in any desired amount, and of any needed denomination. Persons wishing to exchange stocks or other bonds for these, can do so with any of our agents, who will allow the highest current price for ALL MARKETABLE SECURITIES.

Those living in localities remote from Banks may send money, or other bonds, directly to us by express, and we will send back Northern Pacific bonds at our own risk, and without cost to the investor. For further information, pamphlets, maps, etc., call on or address the undersigned, or any of the Banks or Bankers employed to sell this loan.

NATTAN'S CRYSTAL DISCOVERY
The following letters speak for themselves:
Washington, Nov. 4, 1870.
Mr. Arthur Nattans: Dear Sir—After a very thorough and impartial trial of your Crystal Discovery for a month, I feel compelled to acknowledge its very great superiority over any other article now in use for the purpose designed—the speedy restoration of the color and growth of the hair, and no one using it according to directions can fail, I am convinced, to attain this end. The preparation is so simple, and its entire cleanliness affords a new opportunity to the vast numbers utterly disgusted with the poisonous nostrums in use. Having a large number of my personal acquaintances who use your preparation with equal success, I cordially recommend Crystal Discovery to all persons desiring to use anything of this kind. Very respectfully,
P. DOYLE, 701 I street, N. W.

Washington, D. C., July 25, 1870.
Mr. Arthur Nattans: Dear Sir—It affords me pleasure to say that I have used your Crystal Discovery with perfect success. Having tried many others, I find yours superior to any I have heretofore used, and I cannot too highly recommend it as a rapid promoter of the growth of the hair, and by a judicious application, restoring it to its original color. It is perfectly clean and free from any objectionable matter.
Very respectfully yours,
R. W. SILVOY,
K st., bet. 4th and 5th, N. W.

Alexandria, Va., Sept. 10, 1870.
Mr. Arthur Nattans: Sir—I have great pleasure in testifying to the excellence of your Crystal Discovery for the Hair. My back hair is remarkably long and thick, and became prematurely gray, (the hair being hereditary.) In eight weeks, coloring every hair. I like your preparation for its purity, pleasant odor, and freedom from all mineral and poisonous ingredients, as well as its other excellencies. I will recommend it to my acquaintances. Very respectfully, Miss L.

Even the most incredulous must be convinced, by such proofs as the above, from persons well known in Washington. The originals are open to any one wishing to see them.

MEDICAL.

Baltimore Lock Hospital.
DR. JOHNSTON,
Physician of this celebrated institution, has discovered the most Certain, Speedy, Pleasant and Effective Remedy in the world for all
DISEASES OF IMPRUDENCE.

Weakness of the Back or Limbs, Strictures, Affection of the Kidneys, or Bladder, Involuntary Discharges, Impotency, General Debility, Nervousness, Dyspepsia, Languor, Low Spirits, Confusion of Ideas, Palpitation of the Heart, Timidity, Trembling, Dimness of Sight, or Giddiness, Disease of the Head, Throat, Nose or Skin, Affections of the Liver, Lungs, Stomach or Bowels—those terrible Disorders arising from Solitary Habits of Youth—secret and solitary practices more fatal to their victims than the songs of the Sirens, listening to the Sirens of Ulysses, blighting their most brilliant hopes or anticipations, &c.

YOUNG MEN.
Especially, who have become the Victims of Solitary Vice, and dreadful and destructive habits which annually sweep to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entered the Senate with the thunders of eloquence, or walked to ecstasy the living lyre, may call with full confidence.

MARRIAGE.
Married persons, or Young Men contemplating marriage, aware of Physical Weakness (Loss of Procreative Power—Impotency,) Nervous Excitability, Palpitation, Organic Weakness, Nervous Debility, or any other Disqualification, speedily relieved.
